Note from Ms. Potts

We have no school for Labor Day on Monday! Also, picture day will be on **September 7th and 8th**. Students are still to wear their uniforms to school these two days. I also would like to thank the South Side Optimist Club of Saint Louis for providing the third grade students with dictionaries! Don't forget on September 18th Kids Praise will be singing and the third grade students' "surprise" will be handed out at the 10:30 am service! The "surprise" needs to be returned to school by September 14th.

What we are learning-

Religion- This week we will learn about the six chief parts of Christian Doctrine, what the First Table of the Law is, and who the Holy Spirit is.

Math- We will be reviewing for our first test. Then, we will complete our first investigation over pictographs and bar graphs.

Literacy- During writing we will continue to learn how to write using our senses. During reading, we will learn how to make text-to-self, text-to-text, and text-to-world connections.

Social Studies- We will be reviewing for our chapter one test. We will then begin chapter two at the end of the week.

Science- We will begin chapter two. We are going to be learning about both plant and animal life cycles.
