Note from Ms. Potts

Welcome back to school! I am so excited to begin this wonderful school year with both parents and students. I am very excited to jump right into learning with my awesome third graders!

What we are learning-

Religion- We will discuss our school theme, "Love Like Jesus" and the bible verse from which it comes (John 13:34-35) We will then learn about what the Bible is and how it is important to us as Christians.

Math- We are going to begin math this year by discussing calendars and how they pertain to math. We will learn how calendars have patterns and how we can spot patterns in them. We will then jump into intro on telling time to the nearest five minutes and learning what "quarter hours" are.

Literacy- We are going to learn how to become great readers and writers. We will learn how to pick just right books for ourselves. We will also learn what a reading workshop is and how we can use it in our own classroom.

Social Studies- We will begin chapter one. We will be learning what a community is and how communities can be different from one another. We will begin to explore our own community and the wonderful things it has to offer. We will also begin making a brochure of our community.

Science- We will begin chapter one. We will be learning about living things and their needs. We will also be learning about plants and animals. We will dig deeper and discover the different parts that make up both plants and animals.
